

# THE JUMPSTARTER

Volume 28, Number 9

September 2021

## Covid Stalled Car Season!

Due to the Covid Pandemic, our Cadillac LaSalle Club Sonoran Region has now completed one of its slowest years. We are looking for ideas on new activities that club members would like to participate in. Fred Rank and myself are open to all types of events. We are not asking everyone in the club to show up to everything but a few members at each future event can help our club to grow. Thanks to all who attended the few events we have had over the last year and a half, and to those who did not, you missed a lot. Please put the 2nd Tuesday on your calendars beginning in October 2021 and do your best to attend. As usual, reminder emails will be sent.

On behalf of the Club, I want to thank Jerry McGilsky for his exemplary work over the past years. His services will be missed as Director but he will be continuing on as Treasurer

Please continue to send me information for the Jumpstarter. I need your help to make this club the club we all want. The more submissions from members to the more interaction that we can have. Looking for recipes, stories and whatever else you think other members will enjoy

Best wishes to all for a healthy and safe fall.

Editor: Robyn [rschluter@vtaig.com](mailto:rschluter@vtaig.com) 602-402-9463

**This place will be amazing. We will try to set up a tour and maybe a meeting there when it opens.**

## Presidents Message

*Fall 2021*

**By Robyn Schluter – Director**

Well, here we grow again ..... We received several new member's this season through our WONDERFUL Events! Now at 100 Families. Welcome to our newest members Karl and Jane Wentzel

We have some changes to announce to our local Board. Jerry McGilsky has resigned as Director, he will be sadly missed as he played a large (and long standing) role in the Club.

I am trying to make changes to the website so please help me update it. I would like it to be the get the site to be the clubs go to for the latest club information and events.

The Board continues to meet the last Wednesday of every other month, should any Members have a suggestion to place on the meeting agenda, please shoot me an e-mail with your suggestion at [rschluter@vtaig.com](mailto:rschluter@vtaig.com) Our next Board Meeting will be the last Wednesday of September 2021 as we are off for the HOT summer..

Our Monthly Membership Meetings will continue to be the second Tuesday of each month. We have changed our season schedule to be from October through April. We are currently seeking a potential restaurant replacement for our monthly Membership Meetings, watch your e-mails should a new venue be elected.

As always, check the web-site often as changes will occur in the events and photo pages, not to mention the GREAT Newsletters! Remember to support our sponsors, you can find a full list on our Sponsors Page on the web-site.

Remember-Bring a kid to a car show, let's keep the hobby alive!

Website: <http://www.clcsdr.org>

We also now have a facebook page: Cadillac Lasalle Club Sonoran Desert Region

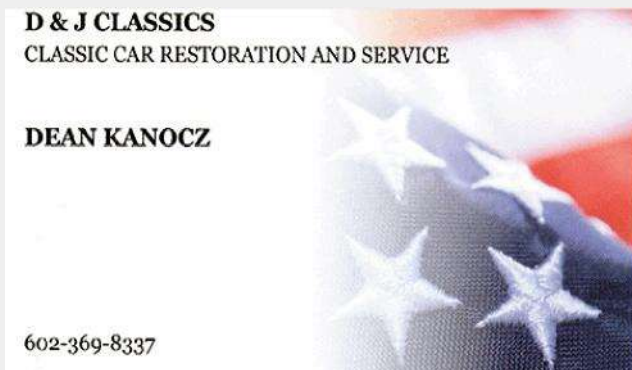

Link to facebook page is <https://www.facebook.com/groups/4452794058092556>

New Instagram page also: clcsdr

I will try to keep that updated between meetings and newsletters.

Thanks again

Robyn

**Latest information from General Motors concerning production  
. Chevrolet, Cadillac, Buick and GMC Dealer Communication**

**Thursday, August 19, 2021 – 10:00 a.m. ET**

**Important Update Regarding Production:**

**As we continue to navigate and take a variety of actions to manage through the global, industry-wide shortage of semiconductors, we wanted to provide important upcoming scheduling adjustments to our dealer partners as quickly as possible.**

**Our priority continues to be supporting our dealers and customers by building our most in-demand vehicles. The good news is that we were able to bring our full-size truck plants back to full production this week and will maintain production for the week of August 23. As we move forward with production, please be mindful that a good portion of these units may need to be unfinished units.**

**We've made great progress completing unfinished vehicles at the impacted assembly plants to help meet the strong customer demand. Last week alone over 11,000 units were completed, 95% of which were full-size pick-up trucks. To date, we've completed over 75,000 units with over 50,000 of those units already shipped and delivered to your dealerships.**

**Importantly, we have not taken any semiconductor-related downtime at our Full-Size SUV plant in Arlington, Texas.**

**Following is the summary of semiconductor production adjustments at GM North American Assembly Plants:**

- Flint, MI Assembly (Chevrolet Silverado HD and GMC Sierra HD), Silao, Mexico Assembly (Chevrolet Silverado 1500 and Cheyenne and GMC Sierra 1500) and Ft. Wayne, IN Assembly (Chevrolet Silverado 1500 and GMC Sierra 1500), Arlington, TX Assembly (GMC Yukon and XL, Chevrolet Suburban and Tahoe, Cadillac Escalade and ESV) we will maintain full production for week of August 23**

- **Lansing Delta Township, MI Assembly (Buick Enclave and Chevrolet Traverse) will add an additional two weeks of downtime the week of August 23 and August 30.**
- **LDT had been scheduled to resume production Monday, August 23 and has been down since Monday, July 19.**
- **Spring Hill, TN Assembly (Cadillac XT5 and XT6 and GMC Acadia) will take two weeks of downtime August 23 and August 30.**
- **Ramos, Mexico Assembly (Chevrolet Blazer) will take two weeks of production downtime August 23 and August 30.**
- **In addition, the plant will add an additional two weeks of downtime for Chevrolet Equinox production the weeks of September 6 and September 13.**
- **We expect production of the Chevrolet Blazer to resume the week of September 6, and production of the Chevrolet Equinox to resume the week of September 20.**
- **Orion, MI Assembly (Chevrolet Bolt and Bolt EUV) will take one week of downtime for the week of August 23.**
- **CAMI, Canada Assembly (Chevrolet Equinox) and San Luis Potosi Assembly, Mexico (Chevrolet Equinox and GMC Terrain) will add an additional two weeks of downtime for the weeks of September 6 and September 13.**
- **We expect both CAMI and San Luis Potosi to resume production September 20.**
- **Lansing Grand River Assembly, MI (Cadillac CT4 and CT5) will continue to take downtime for Cadillac CT4 and CT5 production through the week of September 13.**
- **Chevrolet Camaro is running regular production and is not impacted.**
- **We expect CT4 and CT5 production to resume production the week of September 20.**
- **The plant also continues to support limited Cadillac Black Wing production.**

- **Wentzville, MO Assembly (Chevrolet Express, GMC Savana) remains on downtime through week of August 30.**
- **Please note there is NO impact to mid-size pickup truck production at Wentzville (Colorado and Canyon).**

**These adjustments continue to be driven by parts shortages caused by semiconductor supply constraints and the spreading Delta variant of COVID-19, especially in hard-hit areas of Southeast Asia and specifically Malaysia. This region is a critical hub for semiconductor manufacturers, including production and processing, that supply many OEMs and industries globally. In fact, just this morning both Toyota and VW announced significant cuts to their production, with Toyota slashing its global output by up to 40% in September alone. This will affect its output in every region in the world, including North America.**

**Importantly, we have mapped our exposure in these regions and have a detailed understanding of the semiconductor supply base. We have direct and daily contact with our Tier 1s and semiconductor suppliers to cooperatively find creative solutions to supply constraints. This includes providing the semiconductor suppliers with our COVID safety protocols and playbooks to allow them to safely run their operations.**

**Thank you for your continued cooperation and support as we manage through these unprecedented issues. We appreciate your collective efforts to put the customer at the center and managing tight inventory levels to deliver vehicles at unprecedented turn rates.**

**We will continue to keep you informed with future updates.**

**Regards,**

**Steve Carlisle  
Executive Vice President and President, North America**

### Nashville Hot Chicken Sandwiches

#### Ingredients

1lb bone-less, skinless chicken thighs (about 4)  
2 cups buttermilk  
1/2 teaspoon cayenne pepper  
1/2 teaspoon chili powder  
1/2 teaspoon kosher salt  
1/2 teaspoon black pepper  
1/2 teaspoon garlic powder  
1 cup all purpose flour  
For the hot sauce: 1 cup vegetable oil  
2 teaspoons chili powder  
2 teaspoon paprika  
1/2 teaspoon cumin  
1/2 teaspoon cayenne pepper  
4 brioche rolls  
Coleslaw & pickles to serve

#### Directions

In a bowl combine the buttermilk with the cayenne pepper, chili powder, salt, pepper and garlic bowl. Whisk to combine and add in the chicken. Marinate for at least 1 hour or overnight. Remove from the buttermilk and place the flour in a ziptop bag. Add the chicken to the flour, coat completely and shake off the excess. Place in the air fryer basket and set press the fry button at 400 degrees F., reduce the time 10 minutes until the internal temperature reaches 165 degrees F. Let rest for about 5 minutes while you prepare the hot sauce. In a small pot combine the vegetable oil, chili powder, paprika, cumin and cayenne pepper and bring to a simmer. Remove from the heat and then brush on the chicken just before serving. Serve the chicken on a brioche bun topped with coleslaw and pickles. Enjoy!
